

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number

SUPPLEMENTAL  
REISSUE APPLICATION DECLARATION BY THE INVENTORDocket Number (Optional)  
501.39180RC2

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,834,922, granted November 10, 1998, and for which a reissue patent is sought on the invention entitled SECONDARY BATTERY POWER STORAGE SYSTEM

the specification of which

is attached hereto.

was filed on March 6, 2002 as reissue application number / and was amended on /  
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Original patent claims 1-17 and 31 are directed to "A secondary battery storage system for connection to a power system" without identifying where the power system is located. New independent claim 34 recites "A secondary battery system of a vehicle" which features of a "vehicle" are not recited in the original patent claims. Further, new dependent claim 32 recites the feature that the power system of claim 31, which is an original claim, is a power system of a "vehicle".
